

# BLM21SP601SN1#

“#” indicates a package specification code.

< List of part numbers with package codes >  
BLM21SP601SN1D BLM21SP601SN1J BLM21SP601SN1B

## Appearance & Shape

## Features

The chip ferrite beads BLM series is designed to function nearly as a resistor at noise frequencies, which greatly reduces the possibility of resonance and leaves signal wave forms undistorted.

BLM series is effective in circuits without stable ground lines because BLM series does not need a connection to ground.

The nickel barrier structure of the external electrodes provides excellent solder heat resistance. BLM21SP series can be used in high current circuits due to its low DC resistance.

## Applications

|             |             |
|-------------|-------------|
| Other Usage | For general |
|-------------|-------------|

## Packaging Information

| Packaging | Specifications   | Minimum Order Quantity |
|-----------|------------------|------------------------|
| D         | 180mm Paper Tape | 4000                   |
| J         | 330mm Paper Tape | 10000                  |
| B         | Bulk(Bag)        | 1000                   |

### Attention

1.This datasheet is downloaded from the website of Murata Manufacturing Co., Ltd. Therefore, it's specifications are subject to change or our products in it may be discontinued without advance notice. Please check with our sales representatives or product engineers before ordering.

2.This datasheet has only typical specifications because there is no space for detailed specifications.

Therefore, please review our product specifications or consult the approval sheet for product specifications before ordering.

# BLM21SP601SN1#

## Specifications

|                                 |                |
|---------------------------------|----------------|
| Shape                           | SMD            |
| Size Code (in mm)               | 2012           |
| Size Code (in inch)             | 0805           |
| Length                          | 2.0mm          |
| Length Tolerance                | ±0.2mm         |
| Width                           | 1.25mm         |
| Width Tolerance                 | ±0.2mm         |
| Thickness                       | 0.85mm         |
| Thickness Tolerance             | ±0.2mm         |
| Impedance (at 100MHz)           | 600Ω           |
| Impedance (at 100MHz) Tolerance | ±25%           |
| Rated Current (at 85°C)         | 2.3A           |
| Rated Current (at 125°C)        | 1.5A           |
| DC Resistance(max.)             | 0.06Ω          |
| Operating Temperature Range     | -55°C to 125°C |
| Mass(typ.)                      | 0.01g          |
| Number of Circuit               | 1              |

## Product Data

Impedance-Frequency Characteristics

In operating temperature exceeding +85°C, derating of current is necessary for BLM21SP series.  
Please apply the derating curve shown in chart according to the operating temperature.

Derating of Rated Current

Equivalent Circuit
