(不会产生对臭氧破坏的 PBBs, PBBOs, CFCs, PBBEs, PBDPEs 和 HCFCs 等物质。)

## 11. OUTLINE (外形尺寸图)

## 12. NOTES (注意事项)

**12.1 Please do not touch the impeller and never carry the fan the lead wires. The bearings and the lead wires may be damaged.**

(请不要碰触扇叶和拉扯线材，以免损坏轴承及导线。)

**12.2 For the purpose of MIS, please specify the Model No. on every order.**

(便于订单管理，请在每一订单上详细注明其型号。)

**12.3 Please do not use the fan in the environment of corrosive gas or liquid.**

(请不要将风扇置于腐蚀的气体和液体内。)

**12.4 Please do not store the fan in the environment of high humidity. Please avoid storage of the fan over 6 months . For long term storage, please connect power to the fan shortly every 6 months even through the fan is stored in room temperature.**

(请不要将风扇储存在高湿度的环境中，请尽量避免将风扇储存期超过6个月。如果要长期储存，请将其在室温的环境下，且每隔6个月须通上电源让风扇短时间运转。)

**12.5 While the fan is in operation, please do not lock the fan intentionally for a long period of time to prevent over heating which may cause permanent damage.**

(当风扇在正常运转时，请不要长时间故意地锁定风扇，那样会使风扇过热从而有可能导致风扇的永久性损坏。)
